

## Exciting Job Opportunity

UET, Peshawar in collaboration with WSSP and UNICEF, is carrying out Water Quality and Sanitation Survey across urban Peshawar. Our teams will be collecting water samples and interviewing households to fill out a questionnaire about water and sanitation services provided to them. These samples will be tested in the lab for 21 Physical, Chemical and Biological parameters.

Fresh graduates of UET, from all disciplines, both males and females are encouraged to apply for field survey and sample collection in three months project funded by UNICEF.

Attractive  
Salary, up to  
**PKR 40,000/-**  
per month

**We are also hiring students for lab tests!**

**(Preferably M.Sc or M.Sc enrolled from Civil, Chemical and Agricultural Engineering).**

If you are good in handling lab tests and can demonstrate discipline and meticulous adherence to SOPs and protocols, then this job is for you.

**Project Duration: August 13, 2018 to November 02, 2018**

**Please email your CVs and any questions you may have to:**
