Configuring "UET-HOTSPOT" on an Android device

The following instructions are for configuring the "UET-HOTSPOT" service for generic Android as provided on Google Nexus phones and tablets.

Please follow these steps:

1. From the home screen go to the Wi-Fi Settings:

2. The Wi-Fi screen will hope and display a list of available networks. Tap **"UET-HOTSPOt"**:

If you do not see "UET-HOTSPOT" listed, please move to a location where "UET-HOTSPOT" is available. If you are unsure, please speak to your local IT support staff.

- 3. You will be prompted to sign in to the wireless network. Enter your credentials as shown below and tap **Connect** when complete note that you may need to scroll down in the box to see the later options (this is sometimes not obvious):
 - o EAP Method: **PEAP** (if you cannot see this option, it might be revealed by selecting the **Show advanced options** box at the bottom)
 - o CA certificate: (unspecified)
 - o Identity: Username [19pwelel1111@uetp.edu.pk]
 - o Password: Your Passowrd
 - o Show password: (you can tick this if you wish to check the password is entered correctly: it will have no effect on the eventual configuration)
