**Subject: New Turnitin Process Implementation and QEC Strategy**

Dear Sir,

This is to inform that from 26<sup>th</sup> September 2023, Turnitin has introduced and implemented a new process for generating Similarity Reports. As per the new process, a student must be enrolled in a Turnitin Class before submitting a manuscript as an instructor on that particular student's behalf. However, it is to note that the number of Student accounts available under UET Peshawar subscription of Turnitin services is extremely limited. Enhanced subscription options are quite expensive and beyond the University's potential.

Therefore, it is to bring into your kind attention that due to the implementation of the new Turnitin process, the QEC is not able to facilitate new Similarity Report requests at the moment, since UET Peshawar has already reached its student limit.

As such, to allow smooth running of affairs at UET Peshawar, the QEC has devised following strategy regarding Similarity Report requests and Instructor/Student accounts under UET Peshawar.

1. Instructor account shall be provided only to a faculty member currently serving at UET Peshawar, and having active PG students enrolled under his/her supervision (BOASAR Notification may kindly be provided if requested by the QEC).
2. Only one active Student account shall be permissible per Instructor account, for generating Similarity Reports.
3. To create account for a new Student, the Instructor shall ensure that the account for previous Student has been vacated. This can be ensured by (for example) forcing the Class of the previous Student to expire.
4. In case, an Instructor opts to use multiple Student accounts in parallel, the QEC shall be forced to lock the instructor's account, and force all the Classes of the account to expire, so that Student accounts can be vacated (to ensure smooth execution of affairs at UET Peshawar and QEC).

Your kind cooperation in this regard will be highly appreciated.
