During the meeting the interested bidders/firms have raised some observations related to Tender documents/RFP, by accepting their genuine concerns the following clarifications and amendments have been made:

- Response regarding the marking criteria given at Page 32 Sr.03 “Energy Yield commitment:**  
The firm will conduct a test every month till the expiry of defect liability period and the average annual energy yield should not be less than 4 KWh for 1KW System Capacity Per day.
- Change of PV module Type from Mono to Bifacial:**  
By following the BOQ specifications the type of PV module mentioned at Page#09 i.e Mono is replaced with Bifacial.
- Correction in PEC specialization Code mentioned as C10:**  
It is clarified that the PEC specialization Code is CE-10 and C10 was a typo mistake.
- Correction in AEDB registration Category C4.**  
It is clarified that the AEDB registration C4 is a typo error and only AEDB registration in any category is mandatory.
- Cleaning of Solar Panels in O & M.**  
Weekly cleaning of Solar Panels is included in the contractor scope till the expiry of Operation and Maintenance period.
- Net Metering.**  
As discussed and suggestions received from different firms, it is decided that the bidder who won the bid will make the efforts for the installation of Net Metering and any related charges occurred will be paid accordingly.
- Marking Criteria**  
The Marking criteria at Page No. 33, at serial No. 06, the word Audited Statements/Income tax returns shall be read as Audited Statements and Income tax returns and the turnover mentioned in the income tax returns only will be considered for evaluation.
