

PAKISTAN ENGINEERING COUNCIL

ATTENTION ENGINEERING GRADUATES OF YEAR 2024 & 2025

Have you obtained your Registered Engineer (RE) certificate from PEC? If not - now is the time!

To be eligible for PEC's flagship Graduate Engineer Trainee (GET) Placement Program starting in October 2025, all participants must be registered as REs with PEC.

This national initiative offers unemployed fresh graduates a structured, hands-on six-month industry placement, fully funded by PEC, in:

- Nation-Building Departments
- Leading Engineering Industries across Pakistan

Eligibility Condition: Only graduates with valid RE status will be considered.

Deadlines for Registration with PEC as RE:

- 2024 Graduates on or before August 31, 2025
- 2025 Graduates through your university on or before September 30, 2025

Important: This is not a call for registration to the GET Program.

This notice is exclusively about ensuring your RE registration with PEC in time. Graduates who fail to obtain RE status by the respective deadlines will NOT be eligible for participation in the GET Placement Program.
