

No. 1106/CE

Dated: 12/02/26

Notification for M.Sc and PhD Positions

Structural Engineering – Masonry Buildings

Applications are invited for **one (02) PhD** and **two (03) M.Sc.** research positions under a **fully funded international research project** titled: **“Building on Tradition: Optimizing Dry Stone Masonry for Earthquake Resistance in Pakistan”**

The project is funded under the **Tech4Dev Program (Switzerland)** and is being conducted in collaboration with **EPFL University, Switzerland.**

Funding & Support

- Monthly stipend as per project/university rules
- Research and laboratory expenses covered
- Opportunity to work on **international collaborative research**
- Exposure to advanced experimental facilities

Eligibility Criteria

For PhD Position:

- M.Sc. degree in Structural / Earthquake Engineering
- Strong background in structural analysis and mechanics
- Interest in experimental research (masonry structures)

For M.Sc. Positions:

- B.Sc. degree in Civil Engineering
- Preferably with inclination towards structural engineering

How to Apply

Interested candidates should submit:

- CV
- Academic transcripts
- Brief statement of research interest

Last date of application is Monday, February 23, 2026.
